Cloud Architecture &
Development
Microservices & Containers
Cloud Platforms (AWS, Azure)
Automation
Mobile Development

Software Development

Architecture & Design
Custom Application Development
Mobile Platform Development
Database Management & Dev
Data Integration
Application Modernization

PAST PERFORMANCE

DEPARTMENT OF COMMERCE, U.S. CENSUS BUREAU

Provided integration and testing services for 64+ integrated systems involved in the 2020 US Census. Also implemented an enterprise level Test Center of Excellence to provide testing (functional, integration, accessibility, automation, performance) as a service to support enterprise testing needs, including 30+ national U.S. Surveys. Additionally, provided custom development (web and mobile) to support internet responses along with integrated custom SharePoint applications and dashboards.

DEPARTMENT OF VETERANS AFFAIRS

Provided software development, testing and deployment management services for the Project Management Accountability System (PMAS). This enabled PMs across the U.S. to centrally manage over \$500M in projects. Also developed a custom OMB submission tool that reduced submission time and errors by over 55%.

DEPARTMENT OF THE NAVY, NAVSUP

Provided cybersecurity, training, RMF and database services. This enables the Navy to ensure that compliance is maintained and supports the mission of assured continuity of operations for the warfighter.

DIFFERENTIATORS

- DCAA audit compliance
- CMMI and ISO certified
- Seasoned management team with domestic and international project delivery experience
- Proven, cost effective VPT performance testing software
- Turnkey integrated SharePoint dashboards for real-time metrics and reporting
- Mature, proven framework for implementing a Test Center of Excellence to provide testing as a service
- Client management portal providing real-time status updates for contracting officers
- Vidoori Applied Innovation Lab (VAIL): an internal R&D and applied-AI lab that develops reusable intellectual property and prepares engineers for contract delivery
- Dedicated quality assurance team that reviews all programs and projects on a consistent basis
- Custom OMB submission tool proven to reduce submission time and errors
- Internal employee engagement team focused on career growth and retention
